## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Withdrawn November 3rd, 1977.*
2. *Mr. Swart*—Resolution—That, in the opinion of this House, there now being some form of regional government covering more than sixty per cent of the population of Ontario and independent review studies of three regional governments completed or nearing completion, the General Government Committee of the House should be authorized to conduct, by itself or through a subcommittee, a full inquiry into the costs and benefits of the Ontario regional government system generally, and without limiting the generality of the foregoing, to examine in particular: 1. The costs of providing various municipal services to residents of communities inside regional governments compared with the costs in communities outside regional government. 2. The degree of duplication, overlap, bureaucracy, and redundancy in inter-municipal and municipal-provincial relationships of regional versus non-regional local governments. 3. The perceived and actual public accountability of the regional systems. 4. Alternative methods to the full-fledged two-tier system of local government.

3. *Mr. Walker*—Resolution—That in the opinion of this House the Government should bring forward legislation to enact a “sunset law” for all regulatory agencies in order that the House may periodically review, in a meaningful way, the continuing need for such agencies.
4. *Mr. Walker*—Resolution—That in the opinion of the House the Government should implement Zero-Based Budgeting.
6. *Mr. Nixon*—Resolution—That in the opinion of this House the Government should establish an emergency relief fund using a portion of lottery revenues to provide loan and grant assistance to individuals and communities subject to extraordinary expenditure due to natural disaster, and that the assistance be payable through municipalities or by the Ministry of Northern Affairs in the unorganized parts of Ontario.
10. *Mr. Kennedy*—Resolution—That in the opinion of this House, an electronic Hansard, similar to that in the House of Commons of Canada be installed in this House and be operated by Mr. Speaker.
12. *Mr. Laughren*—Reasoned Amendment—That the motion for Second Reading of Bill 70, An Act respecting the Occupational Health and Occupational Safety of Workers be amended by deleting all the words after “That” and substituting therefor the words:—“this Bill be not now read a second time but be referred back to the government to have incorporated therein: 1. mandatory health and safety committees with authority to implement change and with access to all relevant information. 2. extended coverage for workers not now protected by the Act. 3. protection of workers from harmful substances in the workplace by: (i) pre-testing all such substances before their introduction; (ii) ensuring that workers are fully informed about all harmful substances to which they may be exposed. 4. the right to refuse unsafe work free from intimidation and disciplinary action. AND FURTHER, that the regulations be tabled by the time of reintroduction in order that those affected may assess the extent and strength of the standards, guidelines and directions contained therein”.
13. *Mr. Cunningham*—Resolution—That in the opinion of this House, in keeping with the Government’s commitment to decentralize authority for waste management and waste disposal from the provincial to the municipal level of government, the Government of Ontario should recognize its responsibility to initiate programs to facilitate the exchange of information and expertise between municipal governments and those provincial governmental organizations responsible for the study and implementation of waste management and resource recovery systems, and that the Government of Ontario co-ordinate the activities of existing programs and personnel within the Ministry of the Environment to assume a position of leadership in the provision of technical and financial assistance to those municipal governments wishing to establish waste management and resource recovery systems.
14. *Mr. Jones*—Resolution—That in the opinion of this House, the Government should give immediate consideration to legislation which would eliminate increases in property tax assessment for persons who install solar energy systems in their places of residence. *To be debated December 8th, 1977.*

## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Withdrawn November 3rd, 1977.*
2. *Mr. Swart*—Resolution—That, in the opinion of this House, there now being some form of regional government covering more than sixty per cent of the population of Ontario and independent review studies of three regional governments completed or nearing completion, the General Government Committee of the House should be authorized to conduct, by itself or through a subcommittee, a full inquiry into the costs and benefits of the Ontario regional government system generally, and without limiting the generality of the foregoing, to examine in particular: 1. The costs of providing various municipal services to residents of communities inside regional governments compared with the costs in communities outside regional government. 2. The degree of duplication, overlap, bureaucracy, and redundancy in inter-municipal and municipal-provincial relationships of regional versus non-regional local governments. 3. The perceived and actual public accountability of the regional systems. 4. Alternative methods to the full-fledged two-tier system of local government.
3. *Mr. Walker*—Resolution—That in the opinion of this House the Government should bring forward legislation to enact a “sunset law” for all regulatory agencies in order that the House may periodically review, in a meaningful way, the continuing need for such agencies.
4. *Mr. Walker*—Resolution—That in the opinion of the House the Government should implement Zero-Based Budgeting.
6. *Mr. Nixon*—Resolution—That in the opinion of this House the Government should establish an emergency relief fund using a portion of lottery revenues to provide loan and grant assistance to individuals and communities subject to extraordinary expenditure due to natural disaster, and that the assistance be payable through municipalities or by the Ministry of Northern Affairs in the unorganized parts of Ontario.
10. *Mr. Kennedy*—Resolution—That in the opinion of this House, an electronic Hansard, similar to that in the House of Commons of Canada be installed in this House and be operated by Mr. Speaker.
12. *Mr. Laughren*—Reasoned Amendment—That the motion for Second Reading of Bill 70, An Act respecting the Occupational Health and Occupational Safety of Workers be amended by deleting all the words after “That” and substituting therefor the words:—“this Bill be not now read a second time but be referred back to the government to have incorporated therein: 1. mandatory health and safety committees with authority to implement change and with access to all relevant information. 2. extended coverage for workers not now protected by the Act. 3. protection of workers from harmful substances in the workplace by: (i) pre-testing all such substances before their introduction; (ii) ensuring that workers are fully informed about all

harmful substances to which they may be exposed. 4. the right to refuse unsafe work free from intimidation and disciplinary action. AND FURTHER, that the regulations be tabled by the time of reintroduction in order that those affected may assess the extent and strength of the standards, guidelines and directions contained therein".

13. *Mr. Cunningham*—Resolution—That in the opinion of this House, in keeping with the Government's commitment to decentralize authority for waste management and waste disposal from the provincial to the municipal level of government, the Government of Ontario should recognize its responsibility to initiate programs to facilitate the exchange of information and expertise between municipal governments and those provincial governmental organizations responsible for the study and implementation of waste management and resource recovery systems, and that the Government of Ontario co-ordinate the activities of existing programs and personnel within the Ministry of the Environment to assume a position of leadership in the provision of technical and financial assistance to those municipal governments wishing to establish waste management and resource recovery systems.
14. *Mr. Jones*—Resolution—That in the opinion of this House, the Government should give immediate consideration to legislation which would eliminate increases in property tax assessment for persons who install solar energy systems in their places of residence. *To be debated December 8th, 1977.*
15. *Mr. Samis*—Resolution—That, In the opinion of this House the Government should amend The Law Society Act to prevent the Law Society of Upper Canada from maintaining its prohibition on the public advertising of services and fees by lawyers and should take whatever additional steps are necessary to ensure that consumers of legal services can be provided with full information about the nature and costs of such services prior to retaining a lawyer.

## PRIVATE MEMBERS' MOTIONS

1. *Withdrawn November 3rd, 1977.*
2. *Mr. Swart*—Resolution—That, in the opinion of this House, there now being some form of regional government covering more than sixty per cent of the population of Ontario and independent review studies of three regional governments completed or nearing completion, the General Government Committee of the House should be authorized to conduct, by itself or through a subcommittee, a full inquiry into the costs and benefits of the Ontario regional government system generally, and without limiting the generality of the foregoing, to examine in particular: 1. The costs of providing various municipal services to residents of communities inside regional governments compared with the costs in communities outside regional government. 2. The degree of duplication, overlap, bureaucracy, and redundancy in inter-municipal and municipal-provincial relationships of regional versus non-regional local governments. 3. The perceived and actual public accountability of the regional systems. 4. Alternative methods to the full-fledged two-tier system of local government.
3. *Mr. Walker*—Resolution—That in the opinion of this House the Government should bring forward legislation to enact a “sunset law” for all regulatory agencies in order that the House may periodically review, in a meaningful way, the continuing need for such agencies.
4. *Mr. Walker*—Resolution—That in the opinion of the House the Government should implement Zero-Based Budgeting.
6. *Mr. Nixon*—Resolution—That in the opinion of this House the Government should establish an emergency relief fund using a portion of lottery revenues to provide loan and grant assistance to individuals and communities subject to extraordinary expenditure due to natural disaster, and that the assistance be payable through municipalities or by the Ministry of Northern Affairs in the unorganized parts of Ontario.
10. *Mr. Kennedy*—Resolution—That in the opinion of this House, an electronic Hansard, similar to that in the House of Commons of Canada be installed in this House and be operated by Mr. Speaker.
13. *Mr. Cunningham*—Resolution—That in the opinion of this House, in keeping with the Government's commitment to decentralize authority for waste management and waste disposal from the provincial to the municipal level of government, the Government of Ontario should recognize its responsibility to initiate programs to facilitate the exchange of information and expertise between municipal governments and those

provincial governmental organizations responsible for the study and implementation of waste management and resource recovery systems, and that the Government of Ontario co-ordinate the activities of existing programs and personnel within the Ministry of the Environment to assume a position of leadership in the provision of technical and financial assistance to those municipal governments wishing to establish waste management and resource recovery systems.

14. *Mr. Jones*—Resolution—That in the opinion of this House, the Government should give immediate consideration to legislation which would eliminate increases in property tax assessment for persons who install solar energy systems in their places of residence. *To be debated December 8th, 1977.*
15. *Mr. Samis*—Resolution—That, In the opinion of this House the Government should amend The Law Society Act to prevent the Law Society of Upper Canada from maintaining its prohibition on the public advertising of services and fees by lawyers and should take whatever additional steps are necessary to ensure that consumers of legal services can be provided with full information about the nature and costs of such services prior to retaining a lawyer.
16. *Ms. Bryden*—Resolution—That the government consider bringing in legislation to establish a public participation fund to which individuals, non-profit groups and associations may apply for assistance to ensure effective participation by the public in hearings instituted under The Environmental Assessment Act, The Environmental Protection Act, The Ontario Water Resources Act, and The Pesticides Act. The parties assisted should be representative of the various interests which are directly or indirectly affected by the hearings.

### PRIVATE MEMBERS' MOTIONS

1. *Withdrawn November 3rd, 1977.*
2. *Mr. Swart*—Resolution—That, in the opinion of this House, there now being some form of regional government covering more than sixty per cent of the population of Ontario and independent review studies of three regional governments completed or nearing completion, the General Government Committee of the House should be authorized to conduct, by itself or through a subcommittee, a full inquiry into the costs and benefits of the Ontario regional government system generally, and without limiting the generality of the foregoing, to examine in particular: 1. The costs of providing various municipal services to residents of communities inside regional governments compared with the costs in communities outside regional government. 2. The degree of duplication, overlap, bureaucracy, and redundancy in inter-municipal and municipal-provincial relationships of regional versus non-regional local governments. 3. The perceived and actual public accountability of the regional systems. 4. Alternative methods to the full-fledged two-tier system of local government.
3. *Mr. Walker*—Resolution—That in the opinion of this House the Government should bring forward legislation to enact a "sunset law" for all regulatory agencies in order that the House may periodically review, in a meaningful way, the continuing need for such agencies.
4. *Mr. Walker*—Resolution—That in the opinion of the House the Government should implement Zero-Based Budgeting.
6. *Mr. Nixon*—Resolution—That in the opinion of this House the Government should establish an emergency relief fund using a portion of lottery revenues to provide loan and grant assistance to individuals and communities subject to extraordinary expenditure due to natural disaster, and that the assistance be payable through municipalities or by the Ministry of Northern Affairs in the unorganized parts of Ontario.
10. *Mr. Kennedy*—Resolution—That in the opinion of this House, an electronic Hansard, similar to that in the House of Commons of Canada be installed in this House and be operated by Mr. Speaker.

13. *Mr. Cunningham*—Resolution—That in the opinion of this House, in keeping with the Government's commitment to decentralize authority for waste management and waste disposal from the provincial to the municipal level of government, the Government of Ontario should recognize its responsibility to initiate programs to facilitate the exchange of information and expertise between municipal governments and those provincial governmental organizations responsible for the study and implementation of waste management and resource recovery systems, and that the Government of Ontario co-ordinate the activities of existing programs and personnel within the Ministry of the Environment to assume a position of leadership in the provision of technical and financial assistance to those municipal governments wishing to establish waste management and resource recovery systems.
15. *Mr. Samis*—Resolution—That, In the opinion of this House the Government should amend The Law Society Act to prevent the Law Society of Upper Canada from maintaining its prohibition on the public advertising of services and fees by lawyers and should take whatever additional steps are necessary to ensure that consumers of legal services can be provided with full information about the nature and costs of such services prior to retaining a lawyer.
16. *Ms. Bryden*—Resolution—That the government consider bringing in legislation to establish a public participation fund to which individuals, non-profit groups and associations may apply for assistance to ensure effective participation by the public in hearings instituted under The Environmental Assessment Act, The Environmental Protection Act, The Ontario Water Resources Act, and The Pesticides Act.
